Seasons

Year 1

Term Autumn 2

What? (Key Knowledge)									
What is a season?	The year is divided into four parts according to the weather and daylight hours. Each part is called a season.								
What are the seasons called?	Autumn, winter, spring, summer								
When are the seasons?	<table border="1"> <tbody> <tr> <td>autumn</td> <td>September October November</td> </tr> <tr> <td>winter</td> <td>December January February</td> </tr> <tr> <td>spring</td> <td>March April May</td> </tr> <tr> <td>summer</td> <td>June July August</td> </tr> </tbody> </table>	autumn	September October November	winter	December January February	spring	March April May	summer	June July August
autumn	September October November								
winter	December January February								
spring	March April May								
summer	June July August								
autumn	In autumn, the weather begins to get colder. The leaves start to fall from the trees. The amount of daylight becomes less. This means the daytimes are shorter.								
winter	In winter, the weather is much colder. Sometimes it is cold enough to freeze leaving frost and ice on the ground. It sometimes snows. Many trees have bare branches as all their leaves have fallen off. The daytimes are the shortest in the year and the night times are the longest.								
spring	In spring, the weather starts to get warmer. The leaves begin to grow on the trees and some trees may blossom (have flowers). Plants begin to grow and you may see baby animals like lambs around. The								

	daytimes start to get longer.
Summer	In summer, the weather gets hotter. The daytime is long and the nights are short. Summer has the longest days. The trees are full of leaves and there are lots of flowers, bees, butterflies and other insects.
What? (Key Vocabulary)	
Spelling	Definition/ Sentence
weather	The weather includes the temperature outside, the wind direction and whether it is raining, sunny, cloudy, foggy, windy or snowing.
daylight	Daylight is when it is light outside. The amount of daylight changes with each season.
temperature	The measure of how hot something is.
Diagrams and Symbols	
	Autumn Leaves begin to change colours to oranges, reds and browns and fall from the tree.
	Winter Trees are bare without leaves.
	Spring New leaves and buds begin to grow.
	Summer Trees are full of leaves.
